An Introduction to Dance Club 2000

Our aim is to teach seemingly complicated Modern Ballroom and Latin American dance routines to even the most "left-footed" person in a simple and step by step manner by means of one to one and group instruction. These are complimented by written notes, regular feedback sessions and many opportunities for general practice to enhance and improve your technique.

Dance clubs are not just for people who want to become competitive dancers, but also for those who want to meet people of all ages with a similar interest. Dancing is a great way to keep fit, socialise and learn a new skill!

General dance club requirements

A good dance club should give you encouragement and confidence as well as providing a range of dance courses you can participate in. Here at Dance Club 2000, we have listened to our members and adapted accordingly, now offering a wider and more comprehensive range of courses than ever before catering for all levels of ability.

A dance club should be convenient to you with parking facilities, accessible by public transport and well lit, especially at night. All Dance Club 2000 venues have ample parking space and a range of venues has been specifically chosen for both walking distance in Chichester and Selsey and accessible for people from as far as Worthing, Midhurst and Southampton!

The facilities should be clean, with suitable flooring and not too overcrowded.

In order to be convenient for our members, we have adapted our class times in order to suit people who sometimes can only make weekends and others who prefer week nights.
